Introducing the NEW STEEL Permanent Marker!

Reliability and dependability, now in a permanent marker. Zebra's new stainless steel Permanent Marker allows you to handle the task at hand, without your marker drying out.

You keep your plant running. We engineer our steel pens to work as hard as you do. Our full line of stainless steel writing instruments help you every hour your shift.

- Quick-drying permanent marker for industrial and laboratory use
- Leave the cap off for up to 5 days without drying out!
- Refillable, so you save the more you write
- Zebra STEEL is known for strength, long lasting performance
- Writes on metal, glass, plastic, and more!

Construction

When Durability Counts

When durability is in your toolbox, you need durability in your pocket. We engineer our stainless steel pens to work as hard as you do. When you need a reliable pen, count on the original STEEL pens to get the job done right.

- Stainless steel barrel is durable and slips easily into work shirt pockets
- Barrel and tip are ideal for marking on the job site
- Zebra STEEL is known for strength, long lasting performance, and is also refillable
