X20 
SARASA dry

Now with an
ANTIMICROBIAL RESIN!

Returning to school in a COVID world, is sure to put students and teachers on high alert against the development of germs. To combat this fear, Zebra has developed the Sarasa dry X20+ offering.

The **antimicrobial resin** has been added to the plastic during the production of the cone, clip and barrel to serve as a **barrier against the growth of microorganisms**.

- **Antimicrobial resin** protects barrel, grip, cone and clip
- **RDI (Rapid Dry Ink)** is an innovative ink technology that allows ink to dry in seconds on most surfaces
- **Smudge proof**
- **0.7mm** point size
- **Soft latex grip**
- **Ideal for left-handed writers**
- **Convenient pocket clip**
- Available in **Black and Blue** ink colors
- Available in **dozen boxes**
- All packs will include **EPA-approved claim**
